

# Sewpportive Friends

A stitch of compassion goes a long way.

---

## Other Ways to Donate

Sewpportive Friends' Wash-Pad Kits are made with high quality fabric and supplies. If you are interested in donating materials, we are in need of the following:

**HEMP or BAMBOO fleece** - both of these fleeces are a naturally healthy option, as they are antifungal & antimicrobial. They should be light colored beige, white, etc., so there isn't any issue with dyes and/or irritation. These two types of fleece have proven to be the most absorbent, which is why we use them.

Cost: approx. \$13 - \$14/yard (USD)

**PUL fabric** - the waterproof fabric we use is a type of "PUL" called Eco-PUL™, used for making reusable diapers, waterproof mattress pads, baby bibs and more. It resists abrasion and is anti-microbial. We use this because it is an excellent and safe option for protection against leakage. As far as design patterns on the PUL material, please choose whatever you'd like!

Cost: approx. \$10 – \$15/yard (USD)

**Women's underwear** – the kits include 2 pair of women's underwear. We are in need of women's size 5 or 6. We request all underwear donated to be 100% cotton.

Cost: approx. \$14/pack of 8 (USD)

**Ziploc bags (gallon size freezer bags)** – 2 bags are included in every kit. They are used for carrying clean and/or soiled pads as well as used for a washing unit.

Cost: approx. \$7/ pack of 50 (USD)

**Velcro (self-adhesive dots for fabric)** – Each pad has a pocket which a Velcro dot set is attached. Three dot sets per kit are needed.

Cost: approx. \$4-\$5/ 8 sets (USD)

*We are happy to supply you our vendor list and will provide a shipping address if you decide to donate fabric or supplies. We are grateful for all donations!*

*Thank you for your support and generosity.*
